

Heidelberg,  
University Teaching Hospital Heidelberg  
Germany and they invited me to come  
this year 2019. The Surgery just  
commenced. They have done the first  
operation. We are now waiting for the  
second one. According to them it will  
take years and is something they will do  
up to three times.

My face is 50% better now than  
before apart from the pains I am passing  
through. He will go back to our Country  
on 09-05-2019 that is next week  
and come back any time they (Hospital)  
invite me to come.
